

SVEN LOVÉN CENTRUM FÖR MARIN INFRASTRUKTUR

Huvudsökande	Ansökan	Station	Station2	Datum	Verksamhet
Kristina Sundell	PhD course in Trans-disciplinary approaches to marine sustainable aquaculture	K	T	November	Kurs
Detlev Arendt	Marine Model Organisms in Evolution & Development - Practical course Course	K		2-15 juli	Kurs
Lara Zácari	Fish and amphibians melanomacrophages	K		April - Oktober	Forskning
Ines Castejòn	Hydrodynamics effects on Syngnathid spp. behavior and habitat preferences	K		Sommar	Forskning
Fabio Badalamenti	Posidonia	K		Maj	Forskning
Lotta Kvarnemo	Fish Behaviour - Research School	K		Augusti - September	Kurs
Malin Celander	International PhD School: Fish Toxicology in silico - Toxicogenomics, Bioinformatics & Mathematical Modeling	K		14-20 augusti	Kurs
Jeremy Long	Collaborative Research (Long, Toth, and Pavia)	T		Februari - Augusti	Forskning
Pedro Martinez	Proteomic analysis of Xenoturbella bockii	K		29 maj- 5 juni	Forskning
Bettina Meyer	The performance of Meganyctiphanes norvegica in times of climate change	K		3 besök: vår, sommar, höst	Forskning
Isabella Van De Velde	DEST Basics of Taxonomy	K		October	Kurs
Lina Rasmusson	Interactions between photosynthetic uptake of CO ₂ by marine plants and marine calcification	K		Sommar	Forskning

Josefin Sundin	Investigating physiological and behavioural effects following exposure to ocean warming and ocean acidification	K		1 juni - 2 juli	Forskning
Alexandra-Sophie Roy	Foraminiferal nitrate respiration in oxygen minimum zones	K		Augusti - September	Forskning
Benjamin Pontiller	Assessment of the microbial community composition in the Gullmar Fjord	K		mars + juni	Forskning
Lukas Meysick	The role of bivalves on seagrass facilitation under varying physical conditions	K		September - November	Forskning
Piero Calosi	Poly Thermo Transgen	K	T	Mars - juni	Forskning
Nanna Hartmann	Microplastics in marine bivalves	K		Vår + Höst	Forskning
Rachel Morgan	Pace of life syndrome in temperate fishes in relation to heat waves and ocean warming	K		17 juni - 2 juli	Forskning
Erin Cox	Effects of OA on seeds & seedlings of <i>Z. marina</i>	K		Juli - Augusti	Forskning
Maria Asplund	ESD 2017	K		April - maj	Kurs
Martin Gullström	Effects of habitat fragmentation on fish: implications for conservation planning	K		Juni + September	Forskning
Martin Dahl	Influence of hydrodynamic processes on carbon storage in <i>Zostera marina</i> meadows	K		Maj - Juni	Forskning
Lotta Kvarnemo	Parental Care and Sexual Selection - research school	K		Höst eller nästa vår	Kurs
Sebastiaan Swart	TING - Training Internationally on Gliders: an advanced course for analytical and operational glider activities	S	K	Maj-Juni	Kurs
Maike Paul	Seagrass adaptation to coastal environments	K		Maj-September	Forskning
Pierre DeWit	An introduction to bioinformatic tools for metagenetic and population genomic data analysis 2017	T		6 - 10 November	Kurs
Anna Arias Bulbena	RHYTMS	K		Juni-Juli	Forskning
Noemi Pierre Charrier	Visiting Pierre de Wit for Population genomics	T		Maj - September	Forskning
Axel Bochert	Fourth Workshop for Marine Energy at Sven Lovén Centre	K		3-9 juni	Kurs
Flore Remouit	4th Workshop for Marine Energy at Sven Lovén Center	K		3-9 juni	Kurs

Eugenio Carpizo-Ituarte	Multiple stressors echinoderms	K		Juli - Augusti	Forskning
Bror Jonsson	What is the role of transport in shaping marine biogeography?	T		Höst	Workshop
Mathew Philip Adams	Evidence for ecosystem feedbacks in seagrass: a targeted combination of flume studies and numerical modelling	K		Mars - Maj	Forskning
